

## Valve Locks

Atomic Performance Products have available a range of heavy duty valvetrain weapons for the Ford SOHC and DOHC 6 cylinder engines. Our range includes H/Duty and Race Springs, chrome moly retainers, machined chrome moly valve locks, stainless steel valves and anti pump-up lifters.

### Chrome Moly Valve Locks

Machined from 4140 chrome moly bar stock, heat treated for maximum strength and black oxide coated for appearance, our valve locks are made to suit our valves and **cannot be used with standard valves**. Simply the best!

### #306540

To suit Ford DOHC w/- Atomic single groove valves - set of 24prs
